Every week we work with a different theme and start with a step by step drawing to create an image using a variety of materials. The second half of the lesson we draw our own drawing using the weekly theme. We also work with light pads and illustrations to trace, which is great for the motor skills and to learn how an illustration is build up. We chat, laugh and encourage each other - we learn to think with our creative head - we have fun in making something new and continue to improve our drawing abilities!
