Meeting Notes:

1	Visit to New School Location The PC visited the new school location and responded positively. Both parents and teachers appreciated the new facilities such as the gym and aula. Parents emphasized the importance of proper change management and adjustments. It was also agreed that some rooms could benefit from gradual upgrades. The PC is enthusiastic and supports the school's phased approach and decision to move.
2	Admissions Policy The new policy now combines admissions and school fees in one document. There was a discussion about the swimming fee and concerns over the voluntary contribution's impact on funding swimming lessons. Pim is reviewing time slots, after which a decision will be made. For now, the swimming fee section will be omitted. Andrea advised to include positive feedback about the swimming program in future communication. The rest of the school fees were approved.

Participation Council

3	Risk Inventory & Evaluation – Prevention Officer The school proposed appointing Jeanet, the caretaker, as the Prevention Officer, as required by the board. She is already engaged in relevant tasks and is the first point of contact. The PC supports this decision.
4	IGVO License The school has received the official IGVO license! A taskforce from the two boards has been formed to develop plans. Communication has been shared with other schools. Target opening is for the 2026/2027 school year.
5	Parking Andrea proposed closing the right-side parking area currently used by teachers. Anne-Marie will continue developing this plan.
6	Any Other Items Avond 4 Daagse The student council expressed interest in joining the Avond 4 Daagse. Due to the current waiting list and the high demands on parent and school resources, the PC decided not to pursue participation this year. The focus will shift to planning internal school events.
